# Chyten's Revolutionary Diagnostic Tests

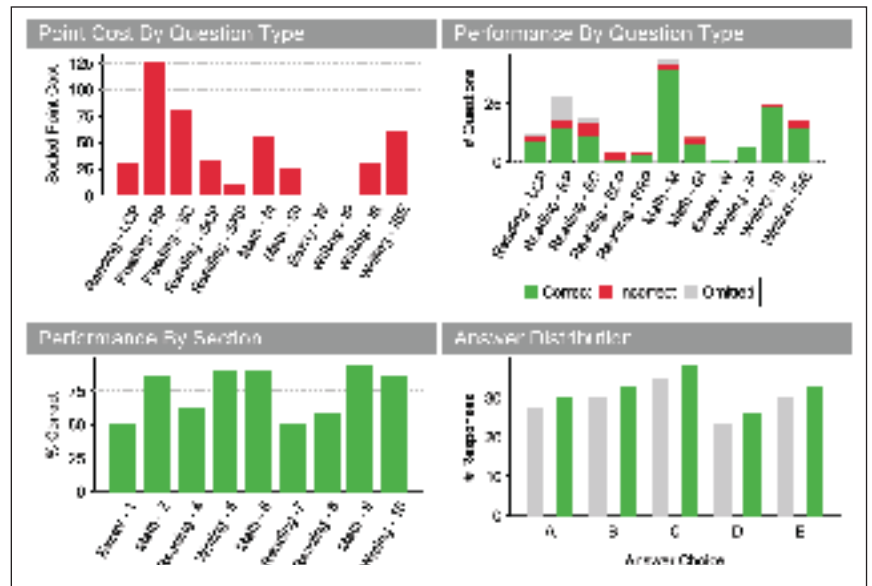

## ACT vs. SAT Comparison Test

With ACT gaining a foothold in the Eastern and Western United States, and with all colleges in America now accepting ACT as readily as they accept SAT, many students are left wondering which test to take and which test matches their academic abilities. While practice versions of both tests were available, no one test existed that could measure a student's relative abilities on both. Now, that test exists. After taking the test, students receive a detailed report that provides information on each student's relative performance on ACT vs. SAT, and the strength of each student's relative ability.

Test is approximately 3 1/2 hours in duration.

## The Magnostic™ SAT and ACT Diagnostics

Chyten's Magnostic SAT and ACT Diagnostics are the most comprehensive SAT and ACT diagnostic tools in existence today. Not only does the Magnostic offer a categorical analysis of test performance, it identifies student tendencies in more than 100 reading, writing and mathematical categories, then analyzes student performance factors such as point cost factor, fatigue factor,

answer distribution, confidence factor and more. With its detailed graphical analysis, The Magnostic provides both visual and linear representations of performance that can easily be turned into a plan of action to improve scores and confidence. Test is approximately 3 1/2 hours in duration.

Your student could become a PASS member as a third grader, then receive discounts as a graduate student fifteen years later!

THE  
REVOLUTION  
IS HERE!

# 7 Reasons to Call Chyten

FOR ALL OF YOUR STUDENT'S TUTORING, TEST PREPARATION AND ACADEMIC NEEDS

## 1 You Should Not Accept Less Than the Best for your Child

You demand the best from your school, so why would you accept any less from a private educational services provider? At Chyten, you get excellence, not excuses. We provide experienced, inspirational, master's degree teachers, effective courses, great strategies, caring services and a proven record of results in raising test scores and grades.

## 2 Chyten Provides a Premium-Level Educational Experience

Chyten was founded based on a lesson plan, not a business plan. We pay our tutors well, provide them with a great environment for teaching and, as a result, attract and retain the best teachers in the industry. We design highly effective courses, rich in unique strategies, and implement them with care and expertise.

We provide all services in our state-of-the-art educational centers, outside the home where distractions and "the comfort factor" can diminish learning. No company or individual matches Chyten's commitment to educational excellence – bar none!

## 3 Receive Detailed Tutor Notes (and more) Following Every Session

Through your free, customized ParentNET website, you receive DETAILED tutor notes following EVERY SESSION! In addition, you can correspond with your tutor, check and change your schedule, provide personalized student assessments to your tutor and receive important messages from Chyten administrators.

## 4 All Educational Services Under One Roof

You'll never have to search for a tutor, a class, an advisor or a college counselor again. Chyten provides all these services at the highest level. No one matches Chyten's widely acknowledged superiority in the education field, and no one provides more premium-level services under one roof!

## 5 Chyten Does Not "Up Sell" More Tutoring Sessions Than You Need

Chyten students get better results with less tutoring time than those of virtually every other company in the country. Some companies recommend up to A FULL YEAR of preparation, and others recommend 40-60 hours! Chyten recommends (though does not require) only 24 hours of tutoring for complete SAT or ACT, ISEE or SSAT and only 12 to 15 hours of tutoring for each SAT Subject Test! Also, Chyten's test preparation classes have no wasted time. Unlike test prep classes of other companies, Chyten students take practice tests outside of class time so no valuable training time is lost.

## 6 Service, Care and Attention

You are never "just a client" to us! From day 1, you and your student receive the ultimate service: upfront goal-setting, ongoing free measurement and testing, free private consultations, frequent feedback conferences and tutor notes after each session.

## 7 Chyten's Magnostic™ SAT and ACT Diagnostic Tests and ACT vs. SAT Comparison Test™ are REVOLUTIONARY – and only available at Chyten.

# What Others are Saying About Chyten

"My son's increase in the ACTs after the preparation time at Chyten was a 40% jump! As a result he received a 4 year, \$80,000 scholarship at a great college." ~ *Parent (Notre Dame Prep School, 2010)*

"Our daughter, an honor student, has always struggled with standardized tests. Her tutors at Chyten, evaluated and pinpointed her problem areas, boosted her confidence and helped her improve her test taking skills. With Chyten's tutoring, she was able to improve her ACT score by 7 points, a full 28% over her initial practice score. Now she is exploring enrollment at top tier colleges that she never thought possible before tutoring with Chyten. Not only have her tutors helped her attain her goals, but they have given her a new level of confidence in her abilities as a student and test taker." ~ *Parent (Chaparral, 2010)*

"The Chyten office in Scottsdale, led by Tom and Ellie Vogel, did a fantastic job assisting my oldest son in his SAT preparation. Their staff and efforts helped Andrew to improve his SAT score by 250 points, from his PSAT to his first SAT test. Not only did he learn the material better through targeted tutoring, but he also gained tremendous confidence, which allowed him to focus and perform better during the test. The results speak for themselves. Additionally, my son needed a proctor for an online math course test, and we asked Tom and Ellie if they happened to offer such a service. They responded by not only researching and becoming certified proctors for the online university, but also to schedule and proctor the test to my son within a couple days of our inquiry. Their timeliness, flexibility, and willingness to go above-and-beyond their normal services was invaluable and a testament to their focus on customer service. Working with them has been a wonderful experience for our family." ~ *Parent (Chaparral, 2010)*

"I was elated when we got Melissa's scores after going through the Chyten program, she will definitely qualify for scholarships with her score." [NOTE: Melissa received \$30,000/ year scholarship award!] ~ *Parent (Desert Vista H.S., 2010)*

"I knew we had excelled beyond our goal when Alexandra said after a tutoring session, "Mom, I finally think I'm smart!" Now she loves to learn, read, even Math!" ~ *Parent (St Mary's H.S. 2011)*

"My daughter went to Chyten for their free test to determine the best type of test (ACT vs. SAT) for her personality. We were so excited about the program we signed up and she raised her score 4 points on the ACT. This will definitely qualify her for acceptance and scholarships at her two choice schools. Chyten's tutors are very talented and designed their program around my daughter's educational needs. They even went as far as changing schedules when needed to support her High School sports schedules. They went above and beyond and really do care about their students." ~ *Parent (Desert Vista H.S. 2010)*

"It was funny going into the program, because I never thought that I needed that much help. About half way through, I realized how much my grades changed, how much I changed! It was a wonderful feeling realizing the potential that my Mother and Chyten saw in me all along." ~ *Student (St Mary's H.S. 2011)*

"From the moment we walked in the door to Chyten we were made to feel welcome, and we instantly knew we were in good hands. Having a son with some physical limitations that affect his academic success, it was important to find a tutoring center that would focus on his individual needs and goals.

Chyten far exceeded our expectations. They embraced our son, and showed how much they cared about his success by carefully choosing a tutor that could adapt the curriculum to his unique learning requirements. Our son achieved a perfect score on his Chemistry SAT exam and we strongly feel that he was able to reach this goal because of the confidence he gained by attending Chyten. We're proud to be a part of the Chyten Family." ~ *Parent (Saguaro H.S. 2011)*

"Chyten helped me navigate the complex process of college admissions. They guided me through all the options for testing, helping me decide what tests would highlight my skills." ~ *Student (Saguaro H.S. 2011)*
