# ADVENTURE

POSSIBILITIES

**THIS SUMMER, GET THE PREPARATION YOU NEED  
AND STILL HAVE TIME FOR SUMMER FUN!**

At Chyten we create the perfect program for each and every student. We understand that every student has different needs, goals, and methods of learning.

That's why we cater to each student on an individual basis, starting with the tutor matching process. We find the perfect tutor for your child's personality, learning style, interests, and academic needs.

While some of our competitors do not even require their tutors to hold college degrees, Chyten requires every tutor to:

- Have a Master's Degree or PhD
- Have years of relevant teaching experience
- Have passion for helping others

We design our learning centers as ideal study environments. Each student meets with his or her tutor in a private room, one-on-one, devoid of the distractions that exist with in-home tutoring.

Because of our intense focus on the quality of the educational experience at Chyten, students need fewer tutoring hours to raise a grade, pass a test, or get

ahead. Chyten's customized SAT tutoring program typically requires 24 hours of tutoring, and has the highest documented average SAT score point gain in the industry - 274 points. Students who take our ACT program often raise their scores by 4-7 points or more. And because Chyten offers one-to-one services, we design programs around your summer schedule.

So this summer, get ready and get ahead with the most effective tutoring available, and still have time left over for everything else that summer has to offer

All colleges in America now accept either ACT or SAT. In fact, some colleges accept ACT results as a replacement for SAT and SAT Subject Tests. Which test a student should take is a critical and individual decision. In truth, both tests contain at least some elements of all of these skills. Not sure which test to take? **Take our ACT vs. SAT Comparison Test to find out or you can also take our ACT vs. Redesigned SAT Comparison Test - Register online at our Testing Schedule page on [www.chytenaz.com](http://www.chytenaz.com).**
